SUPREME ALLIED WAR AU-THORITY REPORTED COURSE **OF FORMATION THURSDAY**

By The Associated Press A Supreme allied war authority to direct high strategy against the axis was reported in the making late today as Japan's land, sea and aerial offensive struck new blows from Burma to Dutch New Guinea and developed its sharpest threat on the Malayan Road to Singapore. London sources said it was be-lieved that Washington should be the headquarters of the pros-pective allied grand council, and the British Press Association re-

ported:

"In capitals of each of the four great allied powers (United States, Britain, China and Russia), leaders and spokesmen have already indicated their agreement to the general principle of a supreme authority for direction of the war."

Japanese bombers carried out widespread attacks, striking at Kunming, the Chinese terminus of the vital Burma Road and Sorong, Dutch New Guinea, while Japanese land forces smashed deeper into northern Malaya and forced the British to make a new strategic withdrawal.

Nimitz, a forceful Texan and proud of it, was ordered to sea from his post as chief of the Bureau of Navigation, where he was rated in service circles as second only to Admiral Harold R. Stark, chief of naval operations.

By reputation a man able and sure in action, Nimitz succeeds Admiral Husband E. Kimmel, commander-in-chief of the Pacific fleet, who with two other top-ranking officers of the Hawaiian area was relieved of command, pending the outcome of the investigation which President Roosevelt ordered on the Pearl Harbor sneak attack.

The navy and war departments acted simultaneously last night in removing the officers whose responsibility for the lack of alert preparedness will be subject to examination by the president's investigating board.

Kimmel was the only navy man affected. The army relieved Lieut, Gen. Walter C. Short of command of the Hawaiian military department, and Major General Frederick L. Martin of command of the Hawaiian military department, and Major General Frederick L. Martin of command of the Hawaiian military department, and Major General Frederick L. RUSSIANS REPORT BITTER HATRED FLARES AMONG HIT-LER INVASION ARMIES

By the Associated Press A great, perhaps decisive turning-point marked Europe's war on two fronts today as Britain announced officially that the axis front in North Africa has been completely shattered and Russia declared that Adolf Hitler's invasion armies were flee-

A Soviet broadcast reported bitter hatred flaring among the axis forces, asserting that Russian cavalry in the Donets Basin had cap-

The broadcast said Rumanian soldiers joined with the Italians against the Germans.

Beginning of End.

Thus, in staccato sentences, the British command fortold the apparent beginning of the end of the African campaign, while on the Russian front, the story of said disaster was even greater.

Fremier Joseph Stalin was quoted as describing the ill-clad, fleeling Germans as "resembling the forces of Napoleon" in the bloody retreat from Moscow in 1812.
